

# RDF INDUSTRY GROUP MEMBERSHIP

## WHO WE ARE

---

The RDF Industry Group works collectively to provide a platform to address issues faced by the sector and to explore new opportunities. The Group also provides a networking platform for members to make new connections, develop existing relationships and share knowledge and experience.

## MEMBERSHIP OPTIONS

---

The RDF Industry Group offers two membership options: full and affiliate membership.

### FULL MEMBERSHIP

Full membership is available to those organisations positively engaged in the export of RDF (from the UK and RoI). Full members meet three times a year, providing opportunities for discussion, knowledge-sharing and networking. Within the Group, there are also a number of smaller working groups for members with particular interests. Members receive monthly updates covering the latest data on export trends and the latest industry news.

### AFFILIATE MEMBERSHIP

Affiliate membership provides businesses involved in the RDF supply chain the opportunity to benefit from being affiliated to the Group, monthly data and information updates, and accreditation with the RDF Industry Group Code of Practice.

## FIND OUT MORE

To find out more please contact the RDF Industry Group secretariat.
